Full job description

Your new company

Join a growing CRO at a point of business expansion. Due to growth in their study portfolios a vacancy had become available for an experienced (Senior) CRA to join the supportive team, home-based anywhere in Australia. This CRO has a reach across the globe and a high staff retention. They develop their staff and promote internally, recognising opportunities for career development and growth. Partnering with niche biotechnology companies and pharmaceutical sponsor organisations, this company provides the opportunity to gain exposure to a variety of cutting-edge research across a broad range of indications and study phases.

Your new role

In your new role you will be responsible for all study monitoring activities from pre-study to close out of clinical trials. While undertaking site management responsibilities, you will ensure the protection of study patients while motivating the team to reach a successful outcome. You will be required to travel within the state and occasionally interstate. You will be responsible for the site visits, ensuring trial data is accurate, complete & in accordance with the ICH/GCP guidelines. In a senior role you will be responsible to mentor and train junior CRAs.

What you'll need to succeed

- A minimum level Bachelor's Degree in Life Science or a related discipline
- At least 2-3 years of independent monitoring experience as a CRA, ideally within a CRO environment
- Exceptional communication and time management skills meeting all

deadlines

- Strong understanding of the clinical trials process, ICH Guidelines/SAE reporting, and regulatory requirements
- Full working rights in Australia

What you'll get in return

- Small company feel in an international CRO
- Continuous support in a close-knit environment
- Broaden your expertise and work on speciality studies
- No minimum days on site per month required
- Competitive salary
- Excellent company culture
- Experienced and supportive management
