### Full job description

Our client is a well-established and highly successful civil contractor with an exciting portfolio of MRPV Projects. Due to continual growth our client is seeking a Project Engineer to oversee multiple projects across metro Melbourne. With a strong family culture, they are a national T2 Civil Contractor who delivers year after year!

Remuneration is based on experience of course, though you can expect a salary between \$115k - \$140k, plus super and car, potentially more...

#### The Position:

- Managing sub-contractors and coordinating works on site
- Ensuring safety and environmental compliance
- Working closely with the client
- Cost control and planning
- Co-ordinating design and construction
- Project procurement and maintaining supplier relationships
- Ensuring projects run to program and contracts administration

#### Ideal Background:

- Bachelor level degree in Civil/Mechanical Engineering (essential);
- Post graduate studies in Project Management and/or Business Management (advantageous);
- Up to 5 years' experience as a Project Engineer within the road, rail and structures space (essential);
- Outstanding verbal and written communication skills.
- Driven and enthusiastic with a positive, hands on attitude to project delivery;
- Self-starter with the ability to determine own priorities and manage work accordingly;

- Passion to take charge of ownership, responsibility and leadership;
- Proficient in Microsoft Word, Excel, PowerPoint & Outlook
- Right to work in Australia (not requiring sponsorship)

If you meet the above criteria, don't hesitate, apply now to be considered for this outstanding opportunity.
