STRONG COMMUNICATION SKILLS

Full job description

Your new company

Hays Newcastle is currently working with a leading company that has opened a new position for an experienced Integration Developer. Due to the growth of their national network, this job will be based in the head office located in Newcastle NSW.

Your new role

Reporting to the Head of Information Technology, you will lead integration development activities across the company applications and support the integrations already in production.

You will also have technical oversight of integration partners, design, development and deployment across the company stack using the Boomi integration suite.

What you'll need to succeed

- Expertise in the assessment, architectural design, and implementation of integration patterns including middleware, bulk data and real-time data. As well as, cloud and file-based integrations.
- Strong communication skills with the ability to communicate technical concepts effectively to all levels of the business.
- Ability to contribute and self-manage within a small team environment.
- Experience linking cross-functional applications with integration
